### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 44, 47, 48 and 50 are rejected under 35 U.S.C. 102(b) as being anticipated by Gieling, 5144780.

The claims in the application are directed to a clip for use with a plurality of roller trays. Therefore, the claimed use of the clip is met by Gieling because Gieling's device has the capability of being used in the claimed intended manner. If applicant desires the claims to be directed toward the combination of the clip and the roller trays, it is suggested that the preamble be amended to state that the invention is directed to a plurality of connected roller trays rather than a clip for use with the roller trays.

Gieling discloses a clip (figure 2) having protruding tines (61, 63) flanking a guide post (33) wherein the guide post is longer than each tine. The clip also has a slot defined by walls/ribs 43. The clip also has a thickness (d, figure 3) defined by the center flange (31).

### ***Claim Rejections - 35 USC § 103***

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and

Art Unit: 3677

the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 45 and 46 are rejected under 35 U.S.C. 103(a) as being unpatentable over Gieling in view of Sasajima, 4867599.

Gieling discloses a knob that extends through the aperture, but fails to disclose flexible arms extending from the top of the knob/tine. Sasajima discloses a tine (11) having flexible arms extending from the center of the top portion of the tine (15). It would have been obvious to a person having ordinary skill in the art to provide the flexible arms in Gieling's device in order to improve the securement between the tines and the support to prevent unwanted accidental disengagement between the tine and the support.

#### ***Response to Arguments***

5. Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.

#### ***Conclusion***

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not

Art Unit: 3677

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
